

# “Modeling California Policy Impact on Greenhouse Gas Emissions” by Jeffery Greenblatt in Energy Policy, 01/22/2015

The CALGAPS model shows greenhouse gas emissions through 2050 under four different scenarios.

*Credit: Image courtesy of Lawrence Berkeley National Laboratory*

S0 = do nothing    S1 = committed policies with force of law (e.g., AB 1493)

S2 = uncommitted policy without detailed plan or financing    S3 = committed and uncommitted
