- * LWVBA COUNCIL MAY 30, 2009
- * WATER SAVING TIP #1
- * IN MEETINGS

* BAY AREA LEAGUE DAY - Water: California's New Gold

190 participants attended BALD on January 31. There were excellent speakers and a chance for questions. To see slides from some of the presenters go to www.lwvbayarea.org and scroll down to Document Library and then Bay Area League Day reports. They provide a good review of the speakers' points.

* LWVBA COUNCIL MAY 30, 2009

To save the air, gas, paper cups, etc. your Board has decided to have a "Virtual Council" this year. We will ask each League to submit no more than a half page list of "Five Important Things" that they have done or have on the drawing board to share with the other Bay Area Leagues. We will submit the budget for your review on line. There will be a complete write-up in the next Voter.

* WATER SAVING TIP #1

Did you know that garbage disposals are illegal in Australia? Disposals waste drinking water. Recycle your green waste in your green can or your compost pile.

* IN MEETINGS

InterLeague Meetings
